"The Enneagram is, more than anything else, a tool for inner transformation." A. H. Almaas

The Enneagram is a psycho-spiritual tool of transformation that is remarkable in how accurately it describes nine basic personality styles. This teaching offers insights into the differences in how people think, feel, and experience the world. It is a system filled with ancient wisdom that not only helps us understand our patterned selves but also points the way to freedom from the hold of repetitive and automatic responses. Simply shedding light on an ingrained personality structure can go a long way to freeing the soul from the structure's historical and embedded grasp.

This weekend workshop is appropriate both for those who are new and for those who are seasoned in this perceptive understanding of personality and its compelling grip on our experience as well as how that grip can be softened.

Dorothy Landry, a Diamond Approach teacher, experienced retreat director, and retired psychotherapist, has been teaching the Enneagram for 30 years. Her love for the Enneagram has guided her journey and has inspired her ever developing understanding of its wisdom. Dorothy is currently working with Diamond Approach students and small groups in CT, MA, and online. For further information, contact Dorothy at drklandry@gmail.com.
